

Architecture // Interior Design Internship Program

A2SO4's summer internship program provides exceptional architecture and interior design students with opportunities to gain professional experience in our Indianapolis based office.

In 2012, A2SO4 will be offering two internship positions — one for 3rd year or above architecture students and one for 3rd year interior design students. These internships will be a unique opportunity to blend the practical and the imaginative potential that both architecture and interior design offer. You will work with a talented team of dedicated and innovative staff, who have designed world-class projects.

SUMMER INTERNSHIP PROGRAM OFFERS THREE MONTHS OF TRAINING FROM MID-MAY UNTIL MID-AUGUST

A2SO4 is pleased to offer a summer internship to a qualified 3rd year student of Architecture or Interior Design. The internship will offer the opportunity to work alongside designers and architects of A2SO4. You will be challenged to stretch and improve your design skill and professional knowledge while working on design, construction documents and construction phased projects of major client projects. As part of your training, you will be able to participate in client meetings, design charrettes and site visits.

One responsibility of the intern will be to maintain the product library and update the A2SO4 Eco-Lib, our sustainable product library database which scores products based on their sustainable attributes. This will increase your knowledge of materials, finishes, and specifications, as well as increase your familiarity with sustainable products. You will also have the opportunity to meet and network with area sales representatives as they bring new product offerings to the library.

A2SO4 realizes the importance of building relationships within the design community, and we will give you many opportunities to meet and network with other design professionals.

TO APPLY, PLEASE SUBMIT THE FOLLOWING BY FRIDAY, MARCH 30, 2012

The top 5 qualifying students will be contacted for interviews by Monday, April 23rd.

1. A well written cover letter
2. A letter of recommendation
3. A well designed resume that includes GPA and studio grades
4. Samples of your work
 - a. Samples/photographs of your work done by hand (sketches, boards, renderings)
 - b. Samples of no more than 6 studio projects completed in any of the following programs (AutoCad, Revit, Sketch up, 3DS Max, Photoshop)
 - c. Samples/photographs of built work, installations, furniture or objects

Electronic samples should be presented in a pdf format not to exceed 10 MB and emailed to krussell@a2so4.com.

Printed samples no larger than 11 x 17 should be mailed to the address below.

Please do not send any originals as A2SO4 will not be responsible for returning work.

ANY PORTFOLIO NOT CONFORMING TO THE ABOVE REQUIREMENTS WILL BE IMMEDIATELY DISQUALIFIED.
